*Prescriber DEA#: BL4699154

*Drugs: hydromorphone 4mg

*Validate Y/N: n

*Validate No Description: The patient has had questionable tendencies in the past. The morphine equiv for the patient is 350. The md has no interest in dealing with the pharmacy professionally. The patient had rx for hydromorphone 4mg #150 and filled an rx for oxycodone 30mg #180 on 3.9.14. I felt very uncomfortable with the prospect of filling this prescription and in my professional judgement denied filling.
